

1 Fold the seal along the union line to the next one.

2 Separate the seal to be used.

3 Once the seal has been placed on the object to be sealed, insert the tip of the tail through the entrance funnel marked "ENTER".

4 Pull the tip of the tail until the seal is adjusted to the appropriate point taking into account its use.

5 STORAGE:

- Close the box after each use.
- Store in a safe, dry, ventilated place at room temperature.
